## 19th EWA Brussels Conference

Water Resilience and Investment:  
Navigating Climate Challenges.

**18 November 2025, Brussels**

# About the Conference

Join us in Brussels for the **19th edition of the EWA Brussels Conference, Water Resilience and Investment: Navigating Climate Challenges**, taking place on **18th November**.

High-level speakers and stakeholders will explore key topics under three main sessions:

- Investing in Water,
- Urban Waster Water Treatment Directive and Climate Change,
- and the R&I under the Water Resilience Strategy.

In June 2025, the European Commission presented its long-awaited **European Water Resilience Strategy**, outlining strategic actions to address growing water challenges across the continent – from droughts and pollution to water efficiency and reuse.

As the water sector welcomes this important policy momentum, the focus now shifts to the next big step: investing in the solutions needed to implement these actions.

Our conference continues the conversation by turning the spotlight on investment needs and practical solutions that are key to transforming resilience strategies into real-world impact.

We are planning to welcome speakers from the EU institution(s), alongside representatives from our EWA member network, to explore how policy, innovation, and financing must align to drive effective climate action and water resilience.

Don't miss the opportunity to become a sponsor and explore our sponsorship offers on the following page.

## Impressions of the 18th EWA Brussels Conference:

# Sponsorship Offer

## General advantages:

- To support the EWA goal: Clean Water for Europe: Quality, Safety, and Sustainability for All.
